

MIDLANDS
TECHNICAL COLLEGE

Ready to **Grow IT** IN COLUMBIA, S.C.?

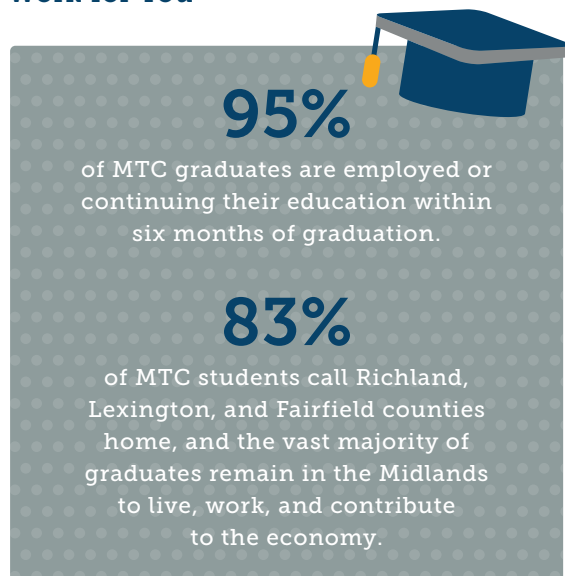

Coming in Fall 2023 to the Beltline Campus
The Center for Business and Information Technologies

Looking to staff, grow, or relocate your company?

For nearly five decades, local and regional employers have relied on Midlands Technical College to train and educate the technically proficient employees they need. Many employers also rely on MTC to develop custom solutions for their business challenges. **We can help you, too.**

WORKFORCE SOLUTIONS

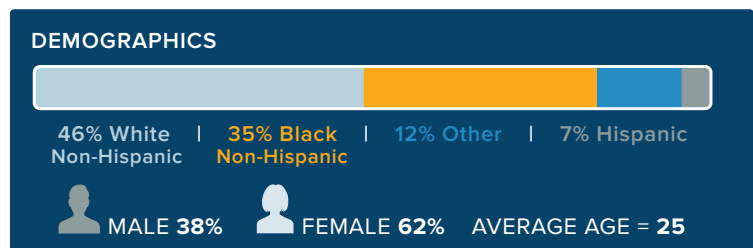

Students Who Are Ready to Work for You

Curriculum that Meets Your Needs

30+ Industry Advisory Boards help ensure MTC's curricula stays aligned with the needs of local business and industry.

Our Student Body Mirrors the Diverse Community We Serve

Youth and Adult Apprenticeship Options

Apprenticeships create long, rewarding career paths that lead to loyalty and stability within your workforce. The state of South Carolina offers a \$1,000 tax credit for each apprenticeship.

BUSINESS SOLUTIONS

Customized Training

Our subject matter experts excel at developing customized content that meet your specific learning objectives in a format and schedule that fits your organization's unique needs.

Consulting and Facilitation Services

Many of our customers rely on us to provide consulting, facilitation, individual coaching services and more. There is no project too big or too small.

RELOCATION SOLUTIONS

Enterprise Campus/Industrial Park

A 130-acre Industrial Park for companies that want to partner with a technically focused academic institution is available on our Northeast Campus.

Existing companies that are ready for more space can capitalize on the resources of MTC by establishing a presence in the only Class A Industrial Park in the City of Columbia, S.C.

Newer businesses that are looking to grow and develop can start at our next-stage Business Accelerator and then graduate to our Industrial Park.

Business Accelerator

Also located on the Northeast Campus – just 15 minutes from Columbia’s Business District – the Business Accelerator provides flexible, light industrial space for emerging businesses.

This multi-bay building is designed to accommodate several businesses as each ramps up for the next phase of production or delivery of its services and/or products. The building includes four industrial bays (4,000 square feet each) and four commercial offices (650 square feet each). Utilities, internet, and maintenance are included in rent.

ADDITIONAL RESOURCES

- > Strong relationships with our K-12 partners and our 4-Year University Partners
- > MTC serves eight school districts through dual enrollment and many other partnerships that encourage students to transition to MTC upon graduation. This year, we had 150 high school students receive their MTC certificate or degree prior to their high school graduation.
- > MTC is proud to partner with 4-year universities throughout the Midlands and across SC to ensure alignment of our curriculum so students do not waste time or money when transferring.

STATE-OF-THE-ART FACILITIES

- > In addition to the existing six campuses across Richland, Lexington and Fairfield counties, a new 58,245-square-foot, state-of-the-art Center for Business and Information Technologies is under construction at our Beltline Campus. *(Photo on cover)*
